Report on Students' Remedial Classes (2023-24)

Introduction The Department of Food and Nutrition organized remedial classes for slow learners during the academic year 2023-24. The initiative aimed to provide additional academic support to students struggling with core concepts, ensuring they achieve a better understanding and improved performance in their coursework.

Objective The primary objective of the remedial classes was to identify and address the learning gaps in slow learners by providing personalized attention and tailored teaching methodologies.

Details of the Program

- **Duration:** Conducted throughout the academic year 2023-24.
- **Frequency:** Weekly sessions, each lasting 1.5 to 2 hours.
- **Participants:** Undergraduate and postgraduate students identified as requiring additional academic support.
- **Methodology:** Interactive lectures, problem-solving sessions, and hands-on practical demonstrations.

Topics Covered The remedial classes focused on fundamental and challenging topics to ensure comprehensive understanding. Below is a list of key topics covered:

Topic	Description
Basics of Human Nutrition	Essential nutrients, their functions, and dietary sources.
Food Chemistry	Chemical composition of foods and their functional roles.
Nutritional Assessment Methods	Techniques to evaluate dietary intake and nutritional status.
Meal Planning	Principles of balanced diets for different age groups.
Clinical Nutrition	Dietary management of common health conditions.
Food Preservation Techniques	Methods to enhance shelf-life and maintain food quality.
Research Methodology	Basics of conducting and presenting scientific research.

Outcomes

- Improved understanding of core topics among slow learners.
- Increased confidence and active participation in regular classes.
- Enhanced academic performance in examinations.

Conclusion The remedial classes conducted by the Department of Food and Nutrition for the academic year 2023-24 successfully addressed the academic challenges faced by slow learners. The department remains committed to fostering an inclusive learning environment by continuing such initiatives in future academic sessions.

Introduction :

Depending on the results of BSc III year remedial classes have been conducted for average students and who have failed in the subject of Microbiology and to assist them to achieve experience, confidence in academic skills and to raise the level of understanding of students in basic subject knowledge of Microbiology to improve themselves for further academic work. As, students develop interest and zeal towards the subject and gain knowledge & get pass in the exam.

REMEDIAL CLASSES-2023-24

Few activities were conducted to scale students based on their performance in activities, All the II-year and III-year students were categorized into above average, average, and below average, based on their previous academic year report, and remedial classes were conducted for all the below average students for their improvisation and betterment so they can cope up with academics.

The aim of remedial classes is to provide targeted instruction and support to help them overcome specific learning gaps, improving their understanding of key concepts and skills in order to bring them up to grade level with their peers, enabling them to succeed in their regular coursework.

The topics that were taught in the remedial classes covered the questions in the examination. As such, students gain confidence to take their exams effectively. 80% to 90% of the students attended the remedial classes; out of it, an overall average of 38% of the students passed the examination.

The below table shows that the improvement of the students in their examinations after attending the remedial classes.
