EVENT REPORT

Communication skills

Event Name: Session about the importance of Communication skills

Date: 02-03-2023 to 18-03-2023

Venue: MBA Auditorium

Participants: 438

Communication is the transmission of ideas and information with the purpose of better understanding one another. This can be done verbally (through dialogue), in writing (through texts, blogs, and magazines), graphically (through figures, charts, and layouts), or via non-verbal communication (body language, facial expressions, voice tone). All of these modes of communication are important soft skills for a bright career.

The importance of communication skills can be seen at the workplace and in personal life and just about everything else in between. Communication skills are inevitably required to allow a free flow of information between oneself and others. On the other hand, a lot of confusion and frustration can ensue if communication breaks down.

At all levels of education, students must be able to communicate effectively. Without well-developed communication skills, students run the risk of falling behind their peers or becoming emotionally overwhelmed or withdrawn at the work place. Effective communication skills are essential for the successful future career of a student.

In today's competitive and continuously changing world, effective communication skills plays a major role in matching with the pace of development. Good reading, writing and keen listening are the three most important aspects of communication skills for students.

The students were more enthusiastic to know more about the importance of communication skills and enjoyed the session.

In this discussion, the group of applicants or candidates is given a topic or a scenario and few minutes are provided them to think about the same, and then asked to discuss the situation among them for a limited time. Organizations conduct group discussion after the written test so as to test the interactive skills of the candidates and how good they are at interacting with other people. Group discussion also tells about how candidates behave, participate and contribute in a group.
