Result analysis of the UG programmes for the Academic year 2023-2024

1. BBA (Bachelor of Business Administration):

A total of 175 students appeared for the exams, of which 133 passed. This reflects a strong performance with a 76.00% pass percentage, indicating that the majority of students were successful in this course. This result suggests effective teaching methods and good student engagement in the BBA program.

2. BCOM (Bachelor of Commerce):

Out of 343 students who took the exams, only 158 managed to pass. This results in a 46.06% pass percentage, which is relatively low. The significant gap between the number of students appearing and passing may point to challenges in understanding the curriculum or exam difficulty in the BCOM program.

3. B.Sc (Life Sciences):

Among 310 students, 167 passed, achieving a pass percentage of 53.87%. This mid-range result indicates that while over half the students succeeded, there is room for improvement in academic performance or support provided to students in this program.

4. B.Sc (Physical Sciences):

With the largest number of students (469), only 166 passed, leading to a 35.39% pass percentage, the lowest among all programs. This raises concerns about potential difficulties in the MAT curriculum, teaching methods, or student preparation. Interventions may be needed to improve outcomes in this course.

5. BCA (Bachelor of Computer Applications):

A smaller cohort of 96 students appeared for the exams, and 69 passed, resulting in a commendable 71.88% pass percentage. This indicates a relatively high success rate and suggests that students in the BCA program are well-prepared and motivated to excel in their studies.

6. PG All Courses:

A smaller cohort of 154 students appeared for the exams, and 85 passed, resulting in a commendable 55.19 % pass percentage. This indicates a relatively high success rate and suggests that students in the PG Courses are well-prepared and motivated to excel in their studies.

6. MBA –MCA :

A smaller cohort of 480 students appeared for the exams, and 296 passed, resulting in a commendable 61.66 % pass percentage. This indicates a relatively high success rate and suggests that students in the PG Courses are well-prepared and motivated to excel in their studies.

Overall Insights:

The BBA and BCA programs are performing well, with pass percentages exceeding 70%.

The MAT program stands out as needing significant attention, as its pass percentage is well below the average.

Other programs like BCOM and BZC fall in the middle range, requiring targeted improvements to boost overall results.

PG Courses need significant attention to improve pass percentage

MBA – MCA very good percentage need improvement to boost the overall result

This analysis can guide focused efforts to address areas of concern while reinforcing the strengths of high-performing programs.
