REMEDIAL CLASS ENZYMES

Enzyme Properties -

- Enzymes are chemically pure, physically colloids.
- All enzymes are proteins but proteins are not enzymes.
- Thermolabile
- Soluble
- Colloidal
- Cofactors
- Enzymes activity can be inhibited by Acids, cyanides, sulphides etc.
- Enzymes activity - They are specific in their action.

10	15/10/22	Correctionofsentences	30	21

Slow learners from different classes and groups have attended the remedial classes to improve their knowledge in academic topics in English subject.

OUTCOME OF THIS COURSE

The topics that are selected for remedial classes are very helpful and useful for the students to pass in their academic subject-English. All the above topics are a part of question paper. Students are able to understand the content because of less strength in the class.

Students are convinced by the classes and are confident to take their examinations. Students overcome the challenges in English subject with the help of mentors.

Slow learners from different classes and group have attended the remedial classes to improve their knowledge in academic topics in English subject.

OUTCOME OF THIS COURSE

The topics that are selected for remedial classes are very helpful and useful for the students to pass in their academic subject-English. All the above topics are a part of question paper. Students are able to understand the content because of less strength in the class.

Students are convinced by the classes and are confident to take their examinations. Students overcome the challenges in English subject with the help of mentors.
