KEYNOTE ADDRESS:

REPORT:

The speaker has provided excellent explanations on a number of subjects related to plastics, including:

- Plastics are made of oil and gas, which causes greenhouse gas emissions during manufacture.
- Plastics break down into smaller bits known as micro-plastics, which nature cannot digest.
- Plastic pollution is a genuine problem.
- Plastics are now found everywhere: in our food, drink, nature, and all over the planet.
- Plastic food and drink packaging frequently contains hazardous chemical additions that impair human health.
- Plastics affect millions of sea and land creatures who are harmed or killed consuming them.

Speaker has also Motivatrdthe students to live a sustainable lifestyle.

KEYNOTE ADDRESS:

REPORT:

In his speech, Dr. A. Sheshachalam, Principal, emphasized to the students and parents the negative consequences of ragging. He gave the pupils an explanation of what exactly ragging is, why it's illegal, and who can face legal consequences. The quiet witness would be judged just as accountable as the offending parties. He told the first-year class that although these regulations are in place to safeguard the juniors, they shouldn't be abused by anyone because doing so could ruin someone's career.

REPORT:

The IQAC organized a training on AQAR preparation to help faculty members prepare and file the reports efficiently. Principal & IQAC Co-Ordinator has clearly explained the components of criteria – 1,2,3,4,5,6 & 7 in detail. The faculty members posed a lot of questions to the IQAC Co-Ordinator, where he answered each of them to the best of his knowledge.
