The MBA students have taken up the challenge of creating Digital awareness among the people living in the Narayanagiri village in Dharmasagar Mandal of Hanumakonda district. As technology is upgrading and opportunities are increasing, it has become essential for every individual to update themselves. In villages where the percentage of agriculturists are high, it is necessary for them to have smart phones. Using these phones they can utilize it for digital transactions as applying for crop loans or making fixed deposits of savings account or breaking the fixed deposit, instantaneously, or making payments. All these facilities save a lot of time and energy. The students helped them in downloading the Apps and operate them to help in the development of different communities.

### 3. Digging of pits for sanitation:

Sanitation pits

Students went to a nearby village in Dharmasagar for a period of 5 days and dug 18 pits for installation of community toilets. 50 students participated in this activity doing manual digging and helping in the installation of community toilets for the benefit of the villagers. They carried provisions and cooked for themselves and learnt about self-sustainability. Such type of activity teaches the students about hard-work, learning to sustain themselves with minimum requirements, developing social concern.

### 4. Literacy campaign:

We have been encouraging the students to go in for various individual efforts as Brand Ambassadors of our college. The students come from various districts and villages around Hanumakonda. It is helping to develop a sense of empathy towards others and also develop philanthropy among them. Students are being given tasks to promote literacy campaign among poor children and elders too.
